

RISK CONTROL

New Online Safety Resource

UPDATED RESOURCE PLATFORM

Sedgwick is pleased to partner with iLearningEngines to provide clients with access to an exclusive risk management resources platform. We are devoted to making it easy to access valuable, up-to-date, safety and loss control resources. This platform provides flexible and comprehensive solutions specifically designed for our pooling clients.

For technical support contact us

Step-by-step registration process

1. Go to: <https://riskcontrol.sedgwick.com>
2. Use the link “Click here to sign-up” on the front page
3. Complete a short form to collect your profile data
4. Select from the Entity Name from the drop-down list
5. Enter contact information including work email address.
6. Click on the Submit button (You will be contacted within one (1) business day to receive information to help you get started)

Register for a new login

1. Click on the custom link sent to you with your new login credentials or go to <https://riskcontrol.sedgwick.com>.

Note: For users who have utilized the iLearningEngines (aka in2vate) platform for other Sedgwick clients, your login credentials to access the Sedgwick Risk Control website are unique and should be entered in the username and password login fields.

2. In the main menu bar, use the **Document Library** to see safety training publications, sample programs and policies, or checklists. Access the **Video Library** to view media produced for our pooling clients.
3. On the Document library or Video library pages, use the **Search** field to enter key words, such as injury and illness prevention program (IIPP), heat, driver, fall protection, programs, or inspections.
